## Welcome to our new fire truck!

On Monday February 19<sup>th</sup> this new Pierce Saber Pumper truck was put into service with our volunteer fire department.

The old 901 truck was very much in need of replacing, and this new 901 will be a great addition to our fleet. The cost of this truck is significant, and the funding comes from a combination of the tax levy proceeds, and fire department fundraiser proceeds. However you may be supporting the department, through taxes, hog roast donations, or both, I thank you very much on behalf of the Fire Department and the Village Government! We cannot do our jobs without our community!

Over please,

*(New fire truck Continued from other side)*

Our volunteers put in many evenings of training, late night emergency runs, and workday interruptions to serve you all. I never knew how busy our volunteers were until I began serving in government. They are proud to serve, and to operate this new apparatus that you all have made possible.

The next hog roast fundraiser will be held on March 23<sup>rd</sup> carry out begins around noon, dine in starts at 3:00 PM, and the auction starts at 5:00 PM. The new truck will be on display for all to see. The kids will love it!

## VILLAGE NEWS

\*The transfer of our water and sewer system to Tuscarawas County is nearing the end of the legal process. Currently we expect transition sometime this summer. I do expect good results from this cooperation.

\*Community Aid is moving to the basement of the United Church of Christ (next to fire station) in Baltic. Up until now it has been in the basement of the Village Hall. (Enter at the side door along the drive way.) March 18<sup>th</sup> 1-4 PM.

## NOTICES

### From the Street Superintendent:

"We will be cutting back the berms and cutting ditches where necessary on Maple and North Butler Streets. We will do this as weather permits in preparation for new pavement. We will also be berming and cutting ditches on all remaining streets to aid with water draining. This process will make a mess along the edge of the lawns. We will be as neat as possible.

### From the water Department:

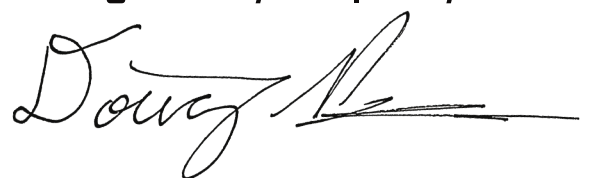

Our Water and Sewer operator will be on vacation through Easter, and thus, those who have manual read meters will have estimated bills. we apologize for any inconvenience.

### From the Mayor: (by request)

Our 2024 council currently includes: Bob Miller (President Pro-tem), Zach Fanning, Chris Miller, Wayne Troyer, and Tom Richter.

I will be making an additional appointment soon to get us back up to six members.

Douglas Plyler | Mayor
